

Nondestructive Testing Society Meeting Set At Scottish Inn, Clinton, Saturday

The American Society for Non-destructive Testing will hold its Annual Ladies Nite Saturday, April 19, at the Scottish Inns of American in Clinton. Festivities begin at 6:30 p.m. Several door prizes will be available for some lucky persons. Austinini and Company will be a special added feature.

The speaker will be Paul Waldron, executive director of the Elastic Fabric Manufacturers Institute, Inc., New London, Connecticut. For many years prior to his present position, he was chairman of the engineering and mathematics departments at Mitchell College, New London. He is presently on its teaching staff in the Math Department, and has done extensive research on noise abatement and under his supervision noise analysis tests have been conducted in several EFMI member companies who manufacture elastic braid and woven elastic.

Waldron holds a BS degree from the University of New Hampshire, an MS from Massachusetts Institute of Technology, and a BS and MA from Trinity College, and continued post graduate study at Yale University. He is a specialist in corrosion, metallurgy, machine design and testing. He is associated with the American Society of Mechanical Engineers, the Statistical Society of America, the American Association for the Advancement of Science, the American Physical Society, the American Society for Testing and Materials, and the American Association of Textile Chemists and Colorists.

He has chosen an interesting topic for April 19's meeting.

Reservations must be in by Friday, April 18, and dinner tickets are \$3 per couple. They are made through L. G. Losh, extension 3-7201, or Joel Garber, extension 3-5413.

Cryogenics Lengthen Life Of Whole Blood

Your blood will still be good even a full hundred years from now . . . a revolutionary prospect comes from advances in the new science of extreme cold, called cryogenics, pioneered by Union Carbide Corporation. Until recently, blood's red cells could be kept only 21 days under ordinary refrigeration. But when frozen instantly and refrigerated with the unearthly cold of liquid nitrogen (—320 degrees F.), red cells retain their life-saving properties indefinitely. This breakthrough makes possible the storage of vast supplies of blood so that even the rarest and most desperately needed types need never again be in short supply. Union Carbide helped perfect the equipment and procedures for blood preservation by cryogenics. Other uses for this new science have also been developed. But none is more rewarding than keeping blood in readiness for today's needs . . . or perhaps those of a century from now.

MUTUAL RESPECT

Respect and concern for your fellow man is the highest form of worship. It is not only a tribute to your Creator, but it also wins back to you respect from your neighbor.

Paul Waldron

Stores' Sharp Dies In Decatur

The Stores Department was shocked by the March 13 death of Mr. Otho B. Sharp. His death came in Decatur, Tennessee, where he was a native. He was formerly with the Tennessee Valley Authority, Maxon Construction Company and the Hiwassee Land Company.

O. B. Sharp

He came to Y-12 May 16, 1956. A veteran of the U. S. Army, he served from 1942 until 1946. Survivors include a sister Mrs. Mary E. Schlasshan, Decatur; and a brother Mr. J. B. Sharp, Cincinnati. Miss Evelyn Turner, his fiancée, also survives.

Funeral services were held Saturday, March 15, in the Evans-Smith Funeral Chapel, Athens, with the Reverend C. E. Wilson officiating. Burial followed in the Decatur Cemetery.

Sincere sympathy is extended the Sharp family.

ASTME Meet Tomorrow At Deane Hill Club

The Knoxville-Oak Ridge Chapter of the American Society of Tool and Manufacturing Engineers has set a meeting tomorrow, Thursday, April 10. It begins at 6:30 p.m. at Deane Hill Country Club, Knoxville. Dinner is at 7 and the technical session begins at 8.

John D. McMillen, advanced systems engineer, Industrial Nuclear Corporation, will speak on "Isotope Gaging for Process Control."

Members are urged to attend tomorrow's ASTME meeting.

POST NO BILLS

Sign in a cloakroom at a university above a row of hooks: "For Faculty Members Only." Underneath someone wrote: "May also be used for coats and hats."

Lunar Sample Box Developed Here

The Nuclear Division, Union Carbide Corporation, is providing the NASA Manned Spacecraft Center with "contingency lunar sample return containers" for use by astronauts during the Apollo mission to obtain a sample of lunar surface material.

The container will be stored, in a partially disassembled form, in the cabin of the lunar module during the translunar portion of the Apollo mission. Before the module lands on the lunar surface, an astronaut will place the container in a pocket in his suit, descend from the module to the lunar surface, assemble the sampler, and scoop up a sample. He will then disconnect the special plastic bag containing the sample and place it in his suit pocket before returning to the lunar module.

The bagged sample will be returned to NASA's Lunar Receiving Laboratory at the Manned Spacecraft Center for analysis.

The container itself consists of a special plastic bag attached to a stainless steel rim. The rim, which is used to dig into the surface being sampled, is attached to a sectionalized handle made of polished aluminum tubing. The sections of the jointed handle are held together by a taught nylon cord extending the full length of the handle and contained within the handle. The cord is pulled taut by means of an attached tee handle.

The handle can be disconnected from the sampling ring by operation of a simple snap lock. This operation also releases the loaded sample bag from the stainless steel rim. The mouth of the sample bag contains an aluminum rim which can be flattened, rolled to seal the bag, and crimped to retain it in the rolled position.

Work on developing the sample container was performed by engineers in Y-12 and the Oak Ridge National Laboratory, both of which are operated for the U.S. Atomic Energy Commission by the Nuclear Division, Union Carbide Corporation.

Traffic Deaths Come During Evening Hours

More fatal traffic accidents occur during the hours of darkness . . . especially during the evening rush hours of 5 to 8 p.m.—than occur during the daylight hours. The National Safety Council urges extra caution on the highways at dusk, particularly, when the eyes are adjusting to the lack of light.

GREAT EXPECTATIONS

Wouldn't it be nice if a fellow could do all the things his wife suspects he does?

Fabrication Announces Promotions For Machining Craft, April 1

The Fabrication Division has announced the promotion of six men to machining foremen, effective April 1.

Three of these promotions are reported this week, and the remaining will be included in next week's Bulletin.

Harold Bright, a native of Chuckey, Tennessee, who spent most of his youth in New Mexico, came to Y-12 last year in March for the second time. He transferred over here in 1959 from K-25, but left Y-12 more than three years ago.

He served in the U.S. Army from 1945 until 1946, and worked with General American Transportation Company, Petroleum, Ohio; and the Sharon Steel Corporation, Farrell, Pennsylvania, before coming here.

Bright lives at 153 Wade Lane, Oak Ridge. His son Harold, a veteran of Vietnam service, is at home; and another son, Mark, attends the Cleveland Community State College, Cleveland. Mrs. Bright is the former Ruby A. Kirk.

Summer Outdoorsman

Bright takes to the lake like a duck, boating and fishing during the summer months. He will be in General Machine Shop.

Jack D. Francis was born in Princeton, West Virginia, and attended the Wyoming Trade School in Pineville.

From 1948 until 1955 he was with the Crozer Coal and Land Company in Lynco, as a rodman. He worked with the Eastern Gas and Fuel Company in Koppers-town; and the Coppinger Machine Service Company in Bluefield before coming here February 16, 1963.

The Francis live at Route 18, Shady Oak Lane, Knoxville. Mrs. Francis is the former Billie Helson. They have one son, Jack II. Francis golfs in his spare time, and fishes and hunts when time allows.

In New Department

Francis is in Fabrication's Alpha Five's West Shop.

Lewis K. Phillips was born in Draper, Kentucky. He will be in the M-Wing Shop in the Fabrication Division.

The Phillips live in the Terry Subdivision in Lake City. A variety of Oak Ridge enterprises saw the new Y-12 foreman's services before he hired in here May 27, 1954 . . . Roane-Anderson, AIT Bus Company, Rust Construction, Maxon, and the Dew Motor Company, in Lake City.

Two Daughters

The Phillips have two daughters, Rebecca, working in Knoxville, and Rosetta, attending the University of Tennessee.

Boating and camping are principle recreational activities in the Phillips household.

More promotions in Fabrication . . . also one in Maintenance will be reported next week.

HUNGRY AMERICANS

Folks in this country eat enough food stuffs to fill eight freight trains, each stretching from New York to San Francisco . . . all in one year!

Harold Bright

GLAD Products Move Into Top Of Market

First distributed nationally only four years ago, Union Carbide's GLAD plastic bags and wrap became the leading brand of plastic wrapping materials in the United States as consumers continued to find new uses in and beyond the kitchen during 1968.

The GLAD product line has been expanded by the addition of disposer bags for easier outdoor handling of garbage and trash and garbage bags for inside the home uses. In Canada, where large plastic bags for trash disposal were first introduced, sales continued to increase as a result of public and government desires for more sanitary and efficient garbage removal.

6-14337-6-14354

A MULE DEER KILLED BY L. J. ADKISSON was brought back from Colorado last October, as a group of Y-12ers went into the Far West for their deer-slaying exposition. W. S. Caruthers, E. E. Cook and G. E. Atchley also went along on the hunt, and Caruthers and Cook brought back a buck each.

Golfers... Golfers... It's Later, Later!

Golfers, allerte! Leagues for summer play are in the organizational stage... and a few twosomes are needed here and there, especially in Whittles Springs play, Knoxville, and Southwest Point, Kingston.

If tee-time is your time, tell 3-7109 your troubles. They'll give you competition that will keep you hopping all summer long!

Technical Folk Enjoy Beaver Brook Party

Some 200 Technical Division folks, their wives or dates, ushered in the Spring Season, Saturday, March 26, with a big dinner-dance at Beaver Brook Country Club.

Food was good, say the revelers. The dancing music superb, and the atmosphere just right.

Magic by Austinini entranced the crowd during intermission, and a goodly share of door prizes were shared by lucky attendants.

A repeat performance is already in the talking stage for next year!

Pictures, next door, please.

Don't Act Smart—Be Smart.

Beavers, K-25 Hawks Finalists In Volleyball!

Narrowed down to two teams now, the Volleyball Tournament lies in the hands of the Beavers from Y-12... and the K-25 Hawks.

Monday's (March 31) action saw the Set-Ups lose to the K-25 Hawks 15-13 and 15-9... after the Set-Ups won game one 15-12.

The Defects ousted the Naughts 15-8 and 16-14. They then turned and defeated ORAU 15-8 and 15-13.

The K-25 Hawks continued their march toward the finals by blasting the Old Men 15-8, 15-1. The Old Men took game two 15-14.

Tuesday saw the Y-12 Beavers put the Nemesis down 15-12 and 15-9... the N's winning game two 15-13.

The Hawks defeated the Defects down in the losers' bracket 15-11 and 15-11. They then turned to defeat the Nemesis 15-11 and 15-9.

The championship game was set for the middle of this week.

Big Five Win C Alley Race Without Roll-Off

The C Leaguers dropped the curtain on their bowling activities early last week... in a position roll-off. The big battle shaped up between the Big Five and Rollmasters, just as it had in the season's first half.

Again the Big Five proved equal to the task and downed the 'Masters by 119 pins... 2847 to 2728 in handicap counting. They defeated them for three points.

Taking four were the Badgers by the HiLifers and the Instrument Engineers around the Parbustlers. The Rounders and Sunflowers shared two... and the Fireballs defeated the Jokers Five by three as did the Royal Flush by the Invalids.

Ray Galford, Sunflowers, rolled a 219 single scratch game. A. Gladson, Fireballs, fired a 242 handicap single down the alleys. Galford's series of 600 scratch, 639 handicap were high.

The Fireballs were hot on singles... 879 scratch, 1024 handicap. In series highs it was the Big Five with 2527 scratch... and the Fireballs with 2899 handicap series.

(The League Champs... the Big Five... consists of Ed Sise, captain; Billy Sise, Jack Smiddy, Norm Jarvis, and J. J. Sewell... with active subs Curt Ridings, Bill Dean and W. C. Smith. The second-placed Rollmasters are made up of Frank Winstead, Bill Ladd, Gordon Hill, George Bailey, Loyd Wyatt, Don Stinnett and George Duncan.)

Team	W	L
Big Five	41½	18½
Rollmasters	39	21
Rounders	35	25
Sunflowers	33½	26½
Badgers	33	27
Instrument Engineers	32	28
HiLifers	29½	30½
Fireballs	28	32
Jokers Five	26	34
Parbustlers	25	35
Invalids	19½	40½
Royal Flush	18	42

Slo-Pitch Interest Is At Fever Pitch!

Slo-pitch teams are pouring into the Recreation Department! It looks like a healthy league, this year. Come on in, men, if it gets too crowded two leagues will be formed probably.

Just call Recreation if you want on a team, or if you have a team. They'll take all the necessary information on extension 3-7109.

HI POWER RIFLE LEAGUE: 9 a.m., Saturday, April 12. Oak Ridge Sportsman's Association range.

AN EXCITED FISHERMAN is David Blevins, as he hauled in 14 saugers Sunday, February 23... only one less than his daily limit. Dave and his fishing buddies, his papa George E. Blevins (a former Y-12er) caught a total of 54 saugers that afternoon. David is the grandson of Russell C. Blevins, Electrical, and Mammaw Martha, another former Y-12er. Both grandparents were kept busy three hours cleaning, fileting and freezing the delicious saugers.

First Y-12 Golf Tournament Set April 26 In Smoky's Rolling Greens

Y-12 employees, those on general staff, and all retirees are invited to dust off the old irons Saturday, April 26, and come on and help knock the frost of the greens at Gatlinburg.

The beautiful Smoky Mountain course is welcoming Y-12 duffers to the divot-grounds the last Saturday of his month. (We were just joshing about that frost, weren't we, Henry?)

Greens fee on the picturesque course is \$5... cart rental is \$7 per twosome. There are approximately 40 carts available to the first 20 foursomes teeing off, and they will go on a first-come, first-served basis. If you wish a cart, be sure to indicate it thus on your application.

Applications will be taken this week and next... and a deadline of Wednesday, 4:30 p.m., April 23 has been set.

The coupon will be repeated in next week's Bulletin for those golfers who lose this week's paper.

There are four other tournaments set during the season for Y-12ers. May's in Maryville... June in Kingston... July in Nio-ta and August in beautiful 'down-town' Knoxville!

U.S.G.A. rules govern all Y-12 tournaments... and awards are made in four divisions, and golf balls are given for the handicap tops... as well as scratch totals.

The big golf committee... George H. Heins, Paul J. Johnson, E. P. Braden, Ray Riggs, and R. T. Cantrell... has come up with a well-rounded summer for those 200 golfers in the plant (and possibly more as newcomers are added every year)... five tournaments and a possible three league competition, which will play at least one a week.

Recreation urges that golfers appear at least 20 minutes before their scheduled tee-off time on the first tee ready to fire.

The 1967 scores will be used as a handicap basis for old golfers... and will be dropped after the Gatlinburg tournament. New golfers will establish a handicap as they go... until the first tournament is history.

Additional information may be obtained from Recreation, extension 3-7109.

Fill in the application complete (a minimum of threesomes will be accepted)... and mail to Recreation, Building 9711-5.

JANET BOYD, Tudor and Emma's daughter, will portray one of the generals in 'La Boutique Fantisque,' set for the Oak Ridge Civic Ballet Association's gala presentation this week.

Ballet Group Will Present Classic 'Boutique Fantisque' Friday, Saturday

The Oak Ridge Civic Ballet Association will present its Spring Concert at the Playhouse in Jackson Square this weekend. Performances are set for 8:15 p.m. Friday and Saturday, April 11 and 12. There will also be a matinee performance at 1:30 p.m. Saturday.

Janet Boyd, daughter of Mr. and Mrs. John H. (Tudor) Boyd Jr., will dance as one of the gen-

erals in "La Boutique Fantisque" (The Fantastic Toy Shop).

Tickets will go on sale at the Playhouse this week, or may be secured earlier by calling Mrs. A. M. R. Ferrari, 114 Newridge Road. Tickets will also be available at the door just prior to the performances. All seats are unreserved, and are selling for \$2.50 for adults, \$1 for students for evening performances; \$2 for adults, 75¢ for students at the matinee.

Classic Bowlers Call It Quits!

The Pinbusters busted the Tigers last week in the final schedule of the Classic Bowling League, but it was too late, with too little. They downed them three points, but the Tigers still took the second half by eight and one-half points. (They roll the All Stars in the roll-off this week.)

Other matches saw the Rebels take four from the Bumpers, the Markers mark past the Screwballs, and the Eightballs gallop over the Cubs . . . all by the same score. The Eagles posted three at the expense of the Rippers, the All Stars did likewise by the Splinters, and the Smelters rolled by the Playboys.

Don Troutman, Markers, marked a 253 scratch single . . . 276 handicap singleton. Dick Huber, All Stars, zeroed in with a 614 scratch series. He and Troutman tied for handicap series . . . 671 each.

The All Stars claimed an 882 scratch single . . . the Smelters 1038 in handicap count. In series it was the Markers, 2570 scratch, 2960 handicap.

Final standings follow:

Team	W	L
Tigers	43	17
Pinbusters	35½	24½
Eagles	35	25
Rebels	35	25
Has Beens	33	27
Bumpers	31½	28½
All Stars	31½	28½
Splinters	29	31
Cubs	28	32
Smelters	28	32
Markers	28	32
Rippers	26½	33½
Swingsters	25	35
Playboys	25	35
Screwballs	23	37
Eightballs	23	37

Mixed Bowlers Roll Final '69 Matches

Y-12 Mixed Bowlers flung their last spheres down the alleys last week, dropping a curtain on 1968-69 play. The Twisters had already sewed up the last half of the league, and face the Hits & Misses in a roll-off tonight. They faced the H & M team in a preliminary test last Wednesday, downing them for three points, winning total pins by a mere 20-pin majority.

Other action saw the Goofers win three from the Roses 'N Thorns . . . and the Rollers roll by the McSprays for the same score.

Frank Winstead, Goofers, galloped off with singles honors . . . 223 scratch, 246 handicap. C. R. Lively, Rollers, rolled a 583 scratch series . . . and Bob Forseman, Mustangs, mustered a 660 handicap series.

Lou Sahr, Twisters, posted a 201, 238 single . . . a series of 513 scratch, 624 handicap!

The Goofers were high in singles . . . scratch of 683 and handicap of 811. Their 1899 scratch series was high also. The Mustangs put a 2284 handicap series down.

League standings follow:

Team	W	L
Twisters	47	9
Goofers	36	20
Roses 'N Thorns	30	26
Hits & Misses	28	28
McSprays	27	29
Rollers	24	32
Mustangs	19	37
Alley Cats	13	43

Meanwhile, all eight teams voiced an interest in beginning series play next September, and elected officers. Charlie Gillihan was named president; Jim Young, vice president; and Ann Lively

KIM GRIFFITH AND BECKY RUSSELL, members of the Girl Scout Cadette Troop #16 are urging everyone to be a good citizen and get their pet innoculated and registered this week-end. Little Heidi (Kim's dog) says she wants to be a good citizen, too, and that the needle only stings for a moment. Kim is the daughter of W. L. Griffith; Becky is J. A. Russell's daughter.

Scouts Urge Rabies Shots For Poochie As Well As Registration . . . Saturday!

As part of their Active Citizenship Challenge, members of the Girl Scout Cadette Troop #16 are working with the Oak Ridge Public Health Department to promote the annual rabies clinic for pets. The girls recently visited the animal shelter to learn more about the problems with animals.

Only 50 per cent of local dogs are estimated to be registered. If 80 per cent of pets in town could be immunized the danger of rabies could virtually be eliminated. Rabies immunization costs only \$2 for each pet (less than the vet charges at his office). Animals will be registered for \$1 each.

Scouts are urging all dog and

cat owners to be good citizens and register and have pets immunized. The Clinic is set for Saturday, April 12, at the following neighborhood schools:

- 1-1:45 p.m.—Highland View Glenwood School
- 2-2:45 p.m.—Linden Elm Grove
- 3-3:45 p.m.—Willow Brook Pine Valley
- 4-4:45 p.m.—Cedar Hill Woodland
- 5-5:30 p.m.—Scarboro Community Center

That's this coming Saturday, April 12. Make your dog or cat a good citizen, too, say the Girl Scouts!

DANNY LEE KERR is the fine son of Mr. and Mrs. Carl Kerr, Lenoir City. He was born January 22 this year . . . weighing more than eight pounds. His father is in Y-12's Building Services Department.

NIGHT DRIVING

Watch out for vehicles that might be parked or stopped on the roadway with poor lights . . . or none at all.

Car pool members wanted from Tazewell Pike, near Smithwood, Fountain City area, Knoxville, to any portal, straight day. C. P. O'Brien, plant phone 3-7394, home phone Knoxville 687-3674; or E. E. Dunn, plant phone 3-5376.

Ride wanted or will join car pool from Clinton Highway to North Portal, straight day. Plant phone 3-5910.

Churches Not Immune To Ravages Of Fire

Some 4,800 churches in the U.S. suffered damage or destruction by fire in 1967, according to the National Fire Protection Association. Many years of traditions and associations can be destroyed in minutes when a church burns, yet churches are among the most poorly protected buildings.
